

MUCH ADVANCE IN EDUCATION

Would Have Two Endowed Institutions in Richmond, Technical School and Woman's College.

THINKS OUTLOOK HOPEFUL

Says Richmond Is Most Splendidly Equipped City in South for Such Institutions.

In regard to the movement on foot to bring about co-operation among the Virginia private schools and colleges for girls, with especial reference to securing a uniformity of standards, Dr. S. C. Mitchell, of Richmond College, expressed himself as being heartily in accord, and he makes some interesting comment on education in general in Richmond and the State.

The movement referred to will be inaugurated in the great teachers' convention, which is to be held in this city, beginning on November 23d. The heads of all schools and colleges for girls are to be invited, with the object of formulating some plan whereby a uniform standard among the schools may be effected. The chairman of the committee which favors the movement is Miss Orie L. Hatcher, Ph. D., daughter of Rev. W. H. Hatcher, D. D., and at present professor of English at Bryn Mawr College, Pa. Others interested in the movement are President Smith of Randolph-Macon Woman's College; President Benedict of Sweet Briar, and Miss Cooke, principal of Hollins Institute.

Dr. Mitchell, of the movement, Dr. Mitchell said that it is most desirable that such a standard be formed for all the women's schools and colleges in the State. Such a standard has been adopted in most of the leading institutions of learning for men throughout the State, and it has been found to work most admirably. Encouraging reports have come from the University of Virginia, Randolph-Macon, Richmond College, and from all the other colleges that have adopted the entrance examinations which are prescribed for those colleges comprising the Association of Colleges, which have such uniformity in view.

Better Work Done.

The standard of efficiency required before one may enter one of these institutions has resulted in matriculating a higher and better class of students. Better work is accomplished, and the results are more quickly observed.

Not has there been that falling off in attendance which it was thought that higher entrance requirements would bring about. On the other hand, there is hardly an appreciable difference—the number of students entering is about the same as in the past. It is believed that the more intelligent class of men results from the same standard, and in that day the institutions of learning may rank with those of the North.

Best in South.

The noted educator took occasion to remark on the educational facilities in this country, and compared them with those of the North. He said that the educational facilities in this country are the best in the South, and that the standard of efficiency required before one may enter one of these institutions has resulted in matriculating a higher and better class of students. ENTHUSIASM AT END OF MEETING

Greatest Convention Women's Christian Temperance Union Ever Held Closes.

NEW PRESIDENT IS CHOSEN

Countess of Carlisle Succeeds Lady Somerset, Who Declined Re-Election.

BOSTON, MASS., October 20.—Amid great enthusiasm the triennial convention of the World's Women's Christian Temperance Union, and the greatest convention that organization has had in its history since it was formed in this city fifteen years ago, came to an end late to-day.

Officers were elected to-day, and the matter of the next meeting place was left to the executive committee, invitations having been received to meet in Sydney, New South Wales, London and Glasgow.

Resolutions pledging the union's adherence to the principle of total abstinence and prohibition, urging that steps be taken to secure greater individual and national purity, and the heads of nations to unite in taking every possible step toward accomplishing universal peace, and declaring the union's purpose to use every legitimate means to secure the franchise for women on the same terms as men, were adopted.

The Countess of Carlisle was chosen president, to succeed Lady Henry Somerset, who declined re-election. Mrs. Stevens was re-elected vice-president at large. The honorary secretaries, Miss Agnes E. Shack, of England, and Miss Anna A. Gordon, of Illinois, and the treasurer, Mrs. Mary Sanderson, of Canada, were re-elected.

PI MU INITIATION.

Medical Fraternity Gives Goat-Ride to New Members.

Gammu Chapter, of the Pi Mu Fraternity, of the Medical College of Virginia, held its regular initiation last night, and afterwards tendered the goats a supper at the fraternity chapter house, No. 30 East Grace Street.

Part of the initiation consisted of a public exercise, which included a torch-light procession through several streets, with the members bearing a coffin. The men were garbed in white gowns and wore red caps, and the whole combined to make a scene that was gruesome in the extreme, enough, too, to make the goats rather fearful as to what was to come in the hidden, secret part of the initiatory ceremony. A supper was tendered the new men immediately after the initiation, and the whole crowd sat down to enjoy themselves after the manner of men who had well earned their meal.

Pi Mu is the oldest medical fraternity in the city, and enjoys among its members a large constituency of the physicians practicing in the city. Those initiated last night were Messrs. Long, Spencer, McDannald, Sager, Powles and Compton, of Virginia, and Sweeney, of Texas.

Felstein Under Arrest.

United States Marshal Morgan Treat has received from United States Commissioner A. C. Garrett, of Newport News, a warrant for the arrest of Max Felstein, formerly engaged in the clothing business at Newport News, now under arrest in New York on a charge of committing fraud in bankruptcy in removing and concealing goods. The marshal of the Southern District of New York has been instructed by Morgan Treat to hold Felstein and to bring him to Norfolk for trial on the charge against him.

Supreme Court Convenes.

The Supreme Court of Appeals of Virginia will convene in this city November 15th, and sessions will be held during a number of cases argued and submitted in Staunton, Wytheville, The Attorney-General and his assistant, Colonel Robert Callitt, are busy preparing to argue several important State cases set for this term.

DR. CECIL TO REOPEN HIS CHURCH TO-DAY

Building Has Been Entirely Refitted and Is Now of Most Handsome Appearance.

The Second Presbyterian Church, which has been handsomely refitted during the last few months, will be reopened to-day. The morning service will be conducted by the pastor, Rev. Russell Cecil, D. D., and will be followed by the administration of the communion.

This church contains some of the most beautiful woodwork in the city, and is the one in which the late Rev. Moses D. Hoge, D. D., ministered for more than half a century.

Repairs include a complete refitting of the main auditorium. The woodwork and oak ceiling have been cleaned and oiled, and the building has been fitted with electric lights throughout. Racks have been provided for each pew, and an abundance of hymn-books have been distributed throughout the church.

The Presbyterian Brotherhood of the church is making active efforts to increase the evening congregation, and a double force of efficient workers will be on hand at each service to welcome strangers.

The electricians have been peculiarly successful in producing a soft and even lighting effect without any disturbing the harmony of the interior design. The gas chandeliers have also been retained, so that on a public occasion a most brilliant lighting effect can be produced.
